Executive Summary Report

Report type: Executive Summary

Generated: 2026-09-24T09:27:53.542706+00:00

Report ID: rpt_73a856d03d | Status: partial

Report Metadata

Research ID: test_zero_charts | Report version: 1.0 | LLM narrative used: False

Executive Summary

This executive summary report covers 0 data source(s) and 0 record(s). Data quality is 'unknown' with 1 warning(s) flagged. 0 KPI(s) were computed deterministically from the underlying data.

Key Performance Indicators

No KPIs available for this report.

Key Findings

● **Data quality flag**

No sources returned by the Researcher Agent.

Charts

No chart images available for this report.

Data Tables

No tables available.

Recommendations

[HIGH] Confirm data source connectivity (investigation)

No records were returned. Confirm the Researcher Agent's query executed against a live source.

Data Quality

Status: **unknown** | Source records: 0 | Missing values: 0 | Invalid values: 0

- No sources returned by the Researcher Agent.

Sources / Provenance

No source provenance recorded.

Calculation Notes

- All numeric KPIs computed with pandas (mean/median/min/max/std/trend) -- no LLM involved.
- Chart data uses structured objects per point, never stringified coordinate lists.
- No source reported status='success': this report may be based on query plans that have not yet been executed against a live database, or on demo/synthetic data.
