Executive Summary 3

System Telemetry and Database Query Status 3

Appendix — Data Quality 4

Executive Summary

Telemetry window: 2026-10-08T10:16:11Z → 2026-10-09T10:16:11Z (bucketed every 5m)

System Telemetry and Database Query Status

The current analysis request contains an incomplete query ('How would you?') and lacks any associated SQL database tables or InfluxDB telemetry data for the specified window of 2026-10-08T10:16:11Z to 2026-10-09T10:16:11Z. Because no machine metrics, sensor readings, or production logs were retrieved, we cannot evaluate equipment performance or operational health. This complete absence of data points to a potential data collection or configuration gap in the telemetry pipeline that requires immediate investigation.

Appendix — Data Quality

LLM Usage & Cost

Model	Input tokens	Output tokens	Total tokens	Estimated cost
gemini/gemini-3.5-flash	714	991	1,705	\$0.0100
